

Project Feedback

Assessment: Specification and Design

Project: A Comparative Benchmark Retrieval Paradigms for RAG over SEC 10-K Filings

Student: Ojaswi Athghara (201959096)

Supervisor: Blaine Keetch

Supervisor Grade: A

A. Summative Assessment:

Specific Assessment Criteria: The grade above is based on a profile formed from the following categories. The overall grade awarded is guided by this profile but not necessarily a weighted or averaged grade.

CATEGORY	A*	A	B	C	D	F	G
Sections in the document							
Project Description	X						
Aims and Requirements		X					
Key Literature and Background Reading		X					
Development and Implementation Summary	X						
Data Sources	X						
Testing			X				
Evaluation		X					
Ethical Considerations	X						
BCS Project Criteria			X				
User Interface Mockup		X					
Project plan		X					
Risks and Contingency Plans	X						
References		X					
Quality of project							
Project originality		X					
Expected project feasibility		X					
Quality of report							
Fluency / Succinctness		X					
Coherence		X					

Justification of the grade:

Overall a strong report. The student has defined a clear research problem, and justified why this research question matters in a straightforward yet detailed manner. The student has shown clearly how they plan to answer this research question with clear scientific techniques. There are some minor weakness of this report, such as the literature review not considering RAG in the financial field (doesn't have to be SEC filings), lack of code testing, and a lack of specificity when it comes to the data (is it six annual filings or nine? If you can find out the answer, say the number instead of guessing).

B. Formative Feedback:

Feedback below aims to help the student to improve the project. It is not part of the assessment criteria.

Guidance for improvements:

Make sure the effort in the implementation matches the effort you have put into your research.
